CINCINNATI, TUESDAY MORNING, APRIL 3, 1860.

and its Horrors.
"McLeod's Travels" gives this horrible ac-

I soon discovered that the French freelabor emigration and the Spanish and American slave trade were carried on by the Governor-General and nearly all the officials in can slave trade were earried on by the Governor-General and nearly all the officials in the Portuguese settlements on the east coast of Africa, and that the residents of those places (with the exception of the most influential, who could assist in the traffic were not allowed to interfere in it; and, if found doing so, were punished. Some of the French vessels engaged in this traffic proceed to vessels engaged in this traffic proceed to vessels, the French settlement off the northwest end of Madaguscar, and put themselves in communication with the Arab merchants, or Antealoats, on Majunga Bay. An Arab belonging to Zanzibar, named Killifan, is generally employed. The vessels remain anchored at Nossibe while the Arabs send their dhows to the coast of Africa to obtain the slaves, who are landed on a given point on the coast of Madagascar.

These dhows are from twenty to fifty tuns burden, generally without decks, and as the Arabs know well that they are liable to be seized, even when empty, by the British shipsof-war engaged in the suppression of the slave trade, if they have mats, provisions, or any extra cooking apparatus on board, they take nothing more than what is absolutely necessary for their own crews. No provision is made for the comfort of the expected living cargo. The slaves forming the cargoes of these dhows are obtained by purof this State, John G. Breslin, is at present living at Hamilton, C. W. The Rev. T. S. King will sail for California on the 5th, to take charge of the Unitarian Church in San Francisco.

provision is made for the comfort of the expected living cargo. The slaves forming the cargoes of these dhows are obtained by purchase or by theft; to the Arabit is a matter of indifference how he obtains them—by purchase, by fraud, or by force. When the cargo is complete, the slaves are tied hand and foot, and then placed on board the dhow. During the voyage to the rendezvous, they receive just sufficient uncooked rice or beans, with a little water, to keep them alive, and are left, day and night, without any covering whatever, bound hand and foot, not being even released to attend to the calls of nature. The ever, bound hand and foot, not being even released to attend to the calls of nature. The interior of the dhow therefore becomes a putrid mass of living corruption; numbers of the slaves dying from fever, dysentery, and small-pox, engendered by the pestilential atmosphere within the hold of the slave dhow. Their destination is generally some port not likely to be visited by her Majesty's druisers likely to be visited by her majesty's cruisers, and, arrived there, the only improvement in their condition is a full allowance of water. Should it happen that by stress of weather, or any other cause, the French ship that is to take them is retarded in her arrival, their take them is retarded in her arrival, their take them is retarded in her arrival, their sufferings are much increased; and when sufferings are much increased; and when these poor creatures do at last get on board the French ship, the sudden change to an ample diet produces sickness and sometimes death. The captain of a French trading vessel stated that, on one occasion, when he landed at Europa Island, at the Southern end of the Mozambique Channel, to obtain some turtle, he found upward of a hundred negroes lying on the beach, without any protection against the sun wind or rain; they were guarded be some armed Arabs, and were waiting for a vessel to take them to Reunio'. Their provisions were nearly exhaust of; and if by any accident the vessel there cargo they were intended to form should be retarded in her arrival at Europa Island, it is easy to conceive what their fate would be.

A Visit to the Wreck of the Lost Hunga-rian.

Wm. H. Raynor, a merchant of Montreal, who visited the wreck of the Hungarian to search for the effects of his brother-in-law, writes to a friend in New York City as folnine years ago, of seventy acres of fand in Virginia, on part of which Richmond now stands, expired on the first of January.

An officer of the Fifty-fifth Regiment, sta-tioned in Dublin, has obtained a verdict of £100 damages against a brother officer, for The Emperor of the French has at last given permission to Marshal McMahon to accept the sword of honor from the people of Ireland.

The total expenditures of Muscatine, Iowa, during the last fiscal year, amounted to \$13,-933 31, and the total debts and liabilities of The large saw-mill, owned by John Mc-Cann, at Nashville; Tenn.. was destroyed by fire a day or two since. Loss between \$12,-000 and \$13,000.

ship, except that the officers mistook light for the other. tanooga Railroad, with all its contents, was burnt the other evening, before the fire could be extinguished.

A Home Contribution to Sculpture.—
There is now, in New Orleans, a piece of sculpture on exhibition remarkably well executed, by a German of Kentucky, out of a block of white marble from Virginia. This contribution to Southern artistic development is a large mantlepiece, which would suitably adorn one of our most spacious palaces. The allegoric composition is worthy of notice; to the left and right are two basreliefs after Thorwaldsen's Goddesses of Morning and Night, carrying with them their sleeping ohlidren, as emblems of national security. On the lateral sides are represented spring and autumn, by two females with emblems of flowers and harvest produce. At the cornices are American eagles, while in front Liberty is holding a medallion-like table, upon which a cherubim, kneeling, writes Webster's immortal device: "Liberty and Union, now and forever."

Chartensm on Senator Wigfall's Speech. Perhaps the most britally Democratic speech ever made in the Senate of the United States is that of Semator Wigfall, last week. The correspondent of the New York Times says of it: It had neither wit nor argument to recommend it, but the Senate listened patiently, hoping that he would at least set it right in commend it, but the Senate listened patiently, hoping that he would at least set it right in the official record. But it appeared just as he delivered it. He even went to the Globe office and gave orders for it to be published "word for word" as delivered. During the delivery of it the Senator had placed upon his desk a glass of liquor, which, however, I did not see him drink. From this fact, and his peculiar manner and language, nearly every spectator naturally supposed that the honorable Senator was drunk.

Homicion in Virginia.—The other day Joseph E. Monroe and William Howard, Joseph E. Monroe and William Howard, who had fought on the 5th inst., when Howard was severely beaten by Monroe, met in the road leading from the Little River Turapike to the Theological Seminary, near Alcrambria, Ya., and renewed the fight, and while both were down, Monroe, who was on top, was shot through the heart by a ball from a pistol in the hands of Howard, and expired in less than five minutes.

HOMICIDE IN VIRGINIA .- On Wednesday a Homicide in Virolbia.—On Wednesday a difficulty occurred in Fairfax County, Va., one mile from Alexandria, between Joseph E. Moaroe and William Howard, which resulted in the former being shot dead by a pistol in the hands of the latter. Howard gave himself up, but the coroner's jury declared that he acted in self-defense, where upon he was discharged.

A FLIPPART PHYSICIAN ANSWERED, -- A cel-A FIFFRANT PRYSICIAN ANSWEIGH.—A celebrated physician said to Lord Eldron's brother, Sir William Scott, rather more flippantly than became the gravity of his profession, "You know, after forty, a man is always either a fool or a physician." The Baronet archly replied, in an insinuating voice, "Perhaps he may be both, Doctor."

QUITE LIKE A WOMAN: - "Madam, you never confess yourself in the wrong." No, sir, but if I had ever been in the wrong, I am sure I should have taken great pleasure in acknowledging it.

The French "Free Emigration" Schome A Blacksmith's Dream Verified-A Miracu- Strange Suicide of a Venerable Invalid and Ious Water-Care.
A correspondent from Vermillion, Illinois,

> he says occurred near that place a short time A little over four years ago, a blacksmith, living at Cherry-tree Corners, about four miles from Vermillion, was severely kicked by a horse while shoeing the animal. Since that time, and until very recently, the man has been unable to walk a step or leave his chair without assistance. About two months since, the blacksmith, whose name is Williard, here, the blacksmith, whose name is Williard,

> in the neighborhood, and became the principal topic of conversation for miles around.
> On the appointed day, several hundred people gathered at a point on Cimpel Creek,
> where the ceremony was to take place. Mr.
> Williard arrived punctual to the hour, and
> was taken from his carriage to the bank of
> the stream. Two clergymen were present,
> but both refused to officiate, having no confidence in the so-called vision of the blacksmith. Two nequaintances of Mr. Williard
> expressed their willinghess to assist in the
> solemn rite, and taking the sick man in their
> arms they walked into the water. He was solemn rite, and taking the sick man in their arms they walked into the water. He was immersed after the usual manner, and when he arose to his feet he eried in a loud voice; "Glory to God! I told you so! I told you it would cure me! All that was required was faith!" Mr. Williard then walked unattended from the water, and received the hearty congratulations of the multitude who crowded around him. He walked to his car-riage with ease and elasticity, and to all ap-pearances his laments has entirely vanished.

The Dauger of Masquerading - A Judge

Mistaken for an Escaped Convict.
The Cleveland (O.) Plain Dealer says that recently a leading citizen having been invited to a parlor masquerade, resolved to go, and to make his disguise impenetrable sent to Co-lumbus for a convict's full suit. It arrived in tue time, and about nine o'clock on the evendue time, and about nine o'clock on the evening of the marquerade the Judge put it on, covered himself with a light cloak and salied forth. A violent wind prevailed and one of the gusts took the Judge's cloak off and sent it whirling into the air. He sprang to recover it, and at the same time a watchman sprang for him. The Judge got his cloak, however, before the watchman got him, and started on a fast ron, hotly pursued by the watchman. The Judge saw it all. The watchman mistook him for a regular escaped convict. If caught it would be an unaped convict. If caught it would be an un-pleasant pickle. The watchman saw it all, too. Here was a chance to distinguish himtoo. Here was a chance to distinguish himself, and perhaps to make something by it. The race became exciting. Fortunately for the Judge it happened on a back street. The race continued. The watchman was reinforced by another watchman, and both pursued the Judge at a furious pace. The Judge finally "gin cout," and made the watchman, after considerable trouble, understand who have and what he was about. Me was then he was and what he was about. He was then suffered to proceed on his way. He told his wife, who said she would never say anything about it, and that is bow it got out.

RICH MINERAL SPRING IN KENTUCKY.—A day or two since, the Uniontown News says we visited the Tar Springs, situated on the banks of Highland creek, about half a mile from our town. The ground on which these valuable springs are situated belongs to the Highland Coal Company, of our town, and we feel assured that if they are developed by sinking shafts and erecting proper machinery, a rich yield of tar-oil will enrich the proprietors of the ground. The mineral which exudes from this ground (one hundred yards front extending back near three hundred yards to the hill) is as black and solid as common tar. The ground, which is now well besprinkled with many small pools of water, since the receding of the high water, shows unmistakable signs of the presence of large quantities of tar-oil beneath the surface. We found that the Hungarian had struck on a ledge called the Cape Ledge, about one-half mile from the shore of Fish Island, in about twenty feet of water. About fifteen feet of one side of the stern and about ten feet of the bow are above water; she seems to be twisted and broken all apart. Nothing can be seen below but some pieces of cloth floating about. The sea is always high there.

One of the steamer's boats has been found off Port Latom, bottom up, and the ours lashed aboard, and the ring-bolts drawn, but not a scratch about her. As fir as I can learn, the the passengers had time to prepare themselves for the worst; and, as no life-preservers had been found, and as a strong current was at the time setting off shore, I think they must all have been carried off to sea.

No one here can account for the loss of the ship, except that the officers mistook our

not a thoroughly ventilated public building Boston. In some public buildings—and we could mention by name churches, where, it would seem, there should be a purity of atmosphere—there are no regular provisions whatever in this respect. That this is so is neither to our credit as architects, or our sense of duty and hymonity as men and wesense of duty and humanity as men and wo-men. The virtue of pure air is on every tongue, but it is of itself rarely in anybody's lungs, unless happily when out of doors, we have learned how to build admirable structures, what ornaments are tasteful, what gives strength, symmetry, proportion, unity and all that, but we have yet to learn the art of ventilation, or at least to put it into prac-tice. There is no reason why a public as-sembly, however large and crowded, should not have the common necessity no less than luxury, of pure air.—Atlas and Bee.

AN EXTENSIVE GAME OF PORER.—The cap-AN EXTENSIVE GAME OF PORER.—The captain of a well-known Mississippi steamboat, and two of his passengers, planters from the Red River country, sat down recently for a friendly game of "draw." After playing for awhile, the captain found himself loser to the tune of over a thousand dollars, and to "get even" during a "deal" on which a considerable sum was staked, he "raised" his antagonists four thousand dollars. The planters remonstrated, stating that they did not wish to play so high, but the captain insisted that his play so high, but the captain insisted that his hand was worth that amount. After considerable hesitation one of the planters "called" him, and the captain, with only "king at the head," permitted his I. O. U. for the four thousand to be "raked down."—

Memphis (Tenn.) Avalanche.

ABOLITION OF THE PUBLIC PRINTING MONOPOLY IN CANADA.—A resolution has been offered in the Legislative Assembly of Canada to abolish the monopoly known as the Queen's Printership in the publication of the Canada Gazette, and that the printing of the Government and Legislature now done by the Queen's Printer be given out by public tender. It was stailed that the largest income made in the province had for many years been made by the Queen's Printer, far exceeding that of the Governor-General.

REMOVING INCRUSTATION PROM BOILERS IN ENGLAND.—Under the supervision of Mr. G. Murdock, some important experiments upon the removal of scale from boilers, have been made on board H. M. steamer Wallace, at Portsmouth, England. The process consists in introducing super-heated steam at a tem-perature of 400° Fahr.; this splits up the scale, and upon water being again introduced, the boller is thoroughly cleaused.

A Candid Convession from the South.—
The Southern Confederacy gives way to its fury thus: "We have thousands of men in the South who are in secret affiliation with the Black Republican party, and who, if the black standard was to-morrow raised in our milst, would be found fighting under its treasonable folds, lending material 'aid and comfort' to our enemies."

Success From Family Troubles.—A man named Geo. Worcester committed suicide, about four miles north of Eikhart, Ind., on Thursday last, by hanging himself to a tree. Family difficulties is supposed to have induced him to take this desperate step.

PRICE ONE CENT. The Advantage of Good Credit

Press.

savs on this subject:

The New York Independent of late date

Mr. F ____, may be good, but don't care if fig for his credit. Allows his bills to mature

and his notes to go to protest unheeded. Stand from under.

Mr. G.—, an ugly, unprincipled fellow, never will pay exchange, anyhow. Thinks the bills of the Bugtown Bank of Minnesota "as good as gold," and ought to pay his notes. Let him slide.

Mr. K—, reputed to be worth \$10,000, but there is no moral soundness in him from the crown of his head to the sole of his foot. Some day he will collapse like a puff ball. Touch him not.

Now, we might go through with the alpha

Henry Embezzling Operation in Philadel

A young man who has been employed for over two years in the gift-book establishment of G. G. Evans, on Chesnut-street, has recently been discovered in the act of embezzling large amounts of money from his employer. It seems that the young man had charge of the order department, receiving letters containing money from the postoffice

letters containing money from the postoffice and then filling said orders by sending the books required. This whole matter being under his charge, he would abstract the money from the letters, make no note of it

continued until the embezzlement amounted to over \$20,000, and not until lately was there

any suspicion of foul play. As soon as a doubt was raised as to the honesty of the clerk, a watch was set at the postoffice, and

counting the number of packages sent away and the number of orders entered upon the

has been married but a few years, and has lived frugally, attending closely to business. The money abstracted has been used in the building of houses, a number of them having been put up in the lower part of the city has year, and paid out of the money taken from the letters. Contracts were about being entered into for the erection of other buildings this again. Person familiar with the con-

this season. Persons familiar with the occu-pation of this individual were led to suppose that the buildings were for Mr. Evans, and not for himself, and thus suspicion was dis-armed, and the fraud continued until the watch was set at the Postoffice. The houses erected have all been given up to Mr. Evans, and their construction having been managed.

and their construction having been manage

a bad state of health, has prevented any public exposure of the fraud.—Public Ledger

AN ABANDONED SLAVER.-An Americ

built hermaphrodite brig has been picked up abandoned near Salt Key Bank, and taken into Nassan, N. P. She is undoubtedly a slaver, which had landed her curgo in Cuba and then been set adrift. She is described as

and then been set adrift. She is described as having an eagle and American flag painted on her stern, and no name. She has a single deck, with slave deck laid, and water casks; also six hundred or more pairs of shackles and fittings. Sails were set, running rigging partly cut away, and no cable or anchors. The stench from the hold was so great that the authorities have put her in the lower quarantine, and no one is allowed to go on board of her.

Canadian View of the Mexican Question. The Toronto Globe, of late date, says: "The fate of Miramon can not be told with certainty. If the American accounts are to be depended upon he is certain of a results from Vera Cruz. It matters little whether he or his opponent, Juarez, succeeds. Neither of them know how to conduct themselves with decency. The best thing the Yankees can do for the world at large, if not for the United States, is to annex Mexico as speedily as possible."

PROBABLE DRAIN BY FAILING PROMISE CHURCH.—A laborer named William Hoys

Mr. I-

The Baton Rouge (La.) Gazette, of Friday furnishes the particulars of a miracle, which last, has the following melancholy story: We have been shocked to learn of the violent end of our venerable fellow-citizen, Captain Daniel Searles, a vetern landmark of Captain Daniel Searles, a vetern landmark of this, and an active aprit of the early time. For several months past has be has expressed himself weary of life, impatient for the hour of dissolution, and to this end made all his preparations for the event with coolness and precision. For the past week he has been confined to his room by sickness, but was not so seriously indisposed as not to be able to move about. To the remark of one of his friends, on Sunday last, that he appeared better, his answer was—"I am not better—do not want to be better, and shall die soon." He had frequently said, "I will not be a bur-

not want to be better, and shall die soon."
He had frequently said, "I will not be a burden to my friends; when I get tired of dying.
I mean to kill myself."
He kept his pistols in his room and at his bed-side; no one dared to thwart the old man in any whim or caprice; and he was the subject of many; perfectly sane in mind, and consistent with his whole course of life in his present action, his friends did not express a desire the most remote to interfere with this—about the loaded pistols at his bed-side. On Wednesday evening, he shaved and this—about the loaded pistols at his bed-side. On Wednesday evening, he shaved and dressed himself for the long sleep that knows no waking—the servant attending him was absent from the room when the fatal moment arrived. Placing himself in order for burial, the pistol in a brief second did the work. He placed the muzzle immediately below the ear, on the right side, and the ball entered and lodged in his brain, producing almost instant death—sufficient vitality was left him, however, under the resolution of his own iron nerves, to lay aside the pistol and cross his hands in death.

Sad Story of a Voyng Man's Fall.

About a year ago a young man was sent to New Orleans to purchase a cargo of sugar for a house in Portland, Maine. He had been at-tached to the house as clerk for several years, and possessed the unbounded confidence of his employers. In his mission to New Orleans he was not only entrusted with suffi-cient money to pay for the cargo of sugar, but with the amount due on a previous cargo, which the house had bought.

which the house had bought.

This young man was very competent in his business, of more than ordinary intelligence, and of fine, attractive appearance withal. He had one sin, and that, aims! was a great one. He had contracted the habit of gambling, and fell, it would seem, a ready prey to the gamblers of New Orleans. He lost every dollar of his ampleces, woney.

There's nothing left—except to run him through."

A brother-in-law (long a resident of New Orleans) of the wretched young man passed through the city on Saturday with his coffined remains. A weeping sister had placed white flowers upon the ignoble yet mourned dead ere it started for the place which had known it in life. In a once happy cottage, now how desolate! in a grandly picturesque spot, within sight of the silver-foaming surf which beats along the ocean coast, a widowed and heart-broken mother awaits the coming of her dear son. And we pity her and mourn the fate of a young man, who in earlier days was our companion and friend.—Cleveland Plain Dealer.

A Betrothed Bride on the Eve of Marriage, Meets an old Lover and the Result

The Terre Haute (Ind.,) Express, of late date, says that a few days ago, a couple, said to be from that State, repaired to Marshall, Ill., to consummate that great event in the life of young people—marriage. They put up at the Wright House, and the happy, expectant bridegroom sallied forth to procure the necessary license and a minister. In his absence, a gentleman, who had just returned from California, examined the register, and finding the lady's name upon it, he immediately sought her presence. He proved to be a former suitor of the lady, and, in fact, the two were engaged to be married at the time he left for the Golden State, where he went to seek a fortune to enable him to wed the to seek a fortune to enable him to wed the

Of course there was a scene. He upbraided the fair one for her inconstancy, and she wept a torrent of tears, asked his forgiveness, and vowed she would break her present engage-ment and unite her fortunes with her old ment and unite her fortunes with her old lover. Just at this moment the first gentleman returned, and his astonishment was very great at the turn affairs had taken in his temporary absence. Explanations followed, and the poor girl being unable to decide between the two lovers, they retired to consult about the matter, and it ended in the Californian resigning all claim to the lady's hand. The lady acquiesced in the decision, and the wedding took place immediately, the discarded and self-sacrificing lover officiating as the right-hand man to the happy groom!

Destructive Fire in Washington, Penu.
The borough of Washington, Washington County, has been visited by a destructive conflagration, the most serious that ever occurred in that place. The fire broke out about half-past two o'clock Wednesday morning, in the rear part of the extensive grocery store of J. Boon & Sons, on Main-street, the flames extending rapidly north as far as the Review office, and south to the residence of Review office, and south to the residence of John Bausman, Esq. On the west side of the street the following property was consumed: The large brick dwelling-house and drugstore of Dr. Joseph Templeton, together with contents; the store and bakery of Henry Marks; the store and bakery of Henry Marks; the store of the Messrs. Boon; residence of Richard Butz, and all the furniture; grocery store of Messrs. Wilson & Guines, with contents; dwelling of Mrs. Spriggs; clothing store of Jacob Goldsmith, sr., and law office of Mr. John Braden; saddlery of Thomas Hall, proprietor of Fulton House. The residence and law office of John L. Gow, and the dry goods store of Mr. Spencer (in the same building,) on the east side of the street, were destroyed. The residence of Dr. Wishart, adjoining, was saved with the greatest difficulty, as was also the residence of Mr. Bausman and the Review office. The loss is estimated at between \$25,000 and \$50,000. loss is estimated at between \$25,000 and \$50,000, on which there is a considerable amount of insurance.

SHOCKING DRATH FROM FALLING ON A HAY-Shocking Drath from Falling on a Hay-Fork.—The young son of Newell Wyman, of Winchendon, Massachnesets, a boy of ten years, went, a day or two ago, upon his father's hay-mow, to look for hens eggs, when a portion of the hay upon which he was standing slipped from its place. The boy fell, striking upon a curved hay-hook, sixteen and one-half inches in length, which penetrated one thigh, and passed up through the body. The iron passed partly through the bowels, the ribs, and into the fiesh of the back. Strange as it may seem the little fellow lived Strange as it may seem, the little fellow lived three bours, bearing his suffering with the greatest bravery, neither crying nor shedding a tear from the beginning.

ANOTHER PRESIDENTIAL PARDON. - Levi Another Presidential Parison.—Levi Long, of Somerset County, (Penn.,) who was convicted at the May term of the United States District Court, last year, for stealing a gold dollar from a letter in the United States mail at Davidsville, where he was postmaster, and was sentenced by Judge McCandless to fifteen years imprisonment in the penitentiary, has been pardoned by the President.

Two HUNDRED AND PIFTY SHEEP BURNT. Mr. James O. Sheldou, of Geneva, N. Y., whose grist-mill was destroyed by fire a few days ago, had also two hundred and fifty South Down sheep burnt; they were in pens beneath a large barn adjoining the mill, and perished in the flames.

WHEELER & WILSON'S

SEWING MACHINE!

NO. 77 W. FOURTH-STREET, PIKE'S OPERA HOUSE,

The New York Independent of Inte date says on this subject:

Few men in business properly estimate the value of good credit. One man thinks that so long as he can obtain property upon a promise of future payment, he need look after or care for nothing more. If he can only get what he wants that is enough for him. He soon finds out, however, much to his mortification, that he does not rank quite as high in market as some of his neighbors. On reflection, he makes up his mind that perhaps his private character is not what it should be, and that this "feature" in his standing is being talked of in business circles. He may be good, it is said, but "fouch him lightly," for in due time he will fall. Another man suddenly asks, "What is the matter?" He discovers a want of cordiality among his "old friends." "Can it be," he says, "that allowing a note to go to protest under peculiar circumstances has thus injured me?"

Now let us be a little more minute, and illustrate this subject by introducing to our readers the following "merchants from the interior," all of whom, of course, stop at the St. Nicholas or the Astor—or at the least smake eigars on the steps of one of these hotels. They severally apply to our "leading firm" for credit. Here is their record:

Mr. A—, reputed to be good, but "he drinks." Look out for him.

Mr. B—, worth \$10,000, lives high, and rides flast horses. Be careful.

Mr. C—, doing a large business, but is now and then found at the gaming table. Sell him for cash.

Mr. D—, reputed wealthy, but is engaged WE OFFER TO THE PUBLIC THE
Wheeler & Wilson Seving Machine, with important inavvenints, and to meet the demand for a
good, low-priced Family Machine, have intraduced a
NEW STYLE, working upon the same principle, and
making the same stitch though not so highly finished, at FIFTY-FIVE DOLLARS.

The elegance, speed, noiscless-neas and simplicity of
the Machine, the beauty and strength of stitch, being ALIRE on north sides, impossible to ravel, and
leaving no chain or ridge on the under side, the
economy of thread and adaptability to the thickest
or thinnest fabrics, has rendered this the most successful and popular Family Sewing Machine now
made. him for cash.

Mr. D——, reputed wealthy, but is engaged in all sorts of speculations. He may succeed and may not. Watch him.

Mr. E——, a clerer fellow, but cares so little about business that his clerks have the principal management of his affairs. He won't do. cossful and popular ranning values and are various offices we sell at New York prices, and give instructions, free of charge, to enable purchasers to see ordinary seams, hem, fell, quill gather, bind and tuck, alon the same machine, and warrant it for a climate containing full particulars, prices, testimonials, etc.

bet several times, and not then present all these "doubtful cases" to our readers. We have left off the catalogue of those who do business on "borrowed capital," those whose "expenses are larger than their income," and "expenses are larger than their income," and a host of others, many of whom deserve a separate notice. Our special object is to call the attention of business men to a very simple question, viz: What constitutes the basis of all credit? Is it money exclusively? Answer the question honestly. If you desire a good name answer it. If you desire a clear conscience answer it. Those "wise and—otherwise" can apply this subject to their "peculiar circumstances and position." To prevent all misapplication of the subject, we will say to the reader—ice mean you personally. IT IS WELL UNDERSTOOD BY MANU-A GREATER VARIETY OF WORK, WILL DO MORE WORK, AND

WILL DO IT IN BETTER STYLE Than can be done on any other Machine. SING-ER'S FAMILY MACHINES, \$55 and \$75. ma30-ay JAS, SKARDON, Agent.
